MADE  IN FRANCE

OPEN SURF System®

Mobility for more freedom.

This innovative system frees up the swimming area during use and the pool deck after securing the pool. OPEN Surf System® covers oval, polygonal, kidney shaped pools, etc.

Adaptable

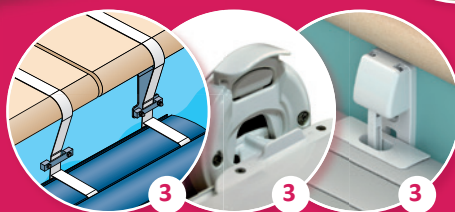

OPEN SURF System® is suitable for almost all existing or new pools. Its innovating principle provides safety and comfort for oval, polygonal and kidney shaped pools, etc. Allows the clearance of obstacles protruding by 130 mm maximum in relation to the rail installation surface.

Comfortable and practical

Cover easily operated by a single person. Declutchable motor, equipped with limit switches, for rolling up the apron.

1 Perfect alignment

Rails guide the cover perfectly during its movement guaranteeing perfect alignment with the apron in relation to the pool and identify reference positions for the start of rolling.

2 2 models

- Hard wired
- Solar Energy depending on the pool's configuration and the required movement distance.

Safety

A safety device that prevents the apron from unrolling outside of the pool. Resting position slatted cover locking mechanism.

AVAILABLE OPTIONS

3 Manual locking mechanisms adapted to all needs:

- straps on the pool deck,
- Coverlock system,
- FEEX'O system.

4 Optimal, the brush wings

They limit the passage of impurities into the pool and reduce the clearance between the brushes and the pool wall.

Guarantee
3
Years*

* For the slats and the system according to the general conditions of sale.
